EDUCATION

University of Waterloo, Computing and Financial Management, Honours, Co-op 09/2023 - 04/2028
Majors: Computer Science, Finance, Statistics (Joint Honours)

EXPERIENCE

Manulife 05/2026 – 08/2026
Co-op
- Resolved global Enterprise Technology Services tickets for cloud and network support.

Treasury Board of Canada Secretariat 09/2025 – 12/2025
Co-op
- Built a .NET MVC module to normalize job titles across 5K public firms via automated pattern analysis.
- Led migration from legacy Selenium to Katalon; set up CI/CD in Azure DevOps to streamline delivery.
- Refactored core parts of an enterprise data platform for maintainability; cut page load 30% via leaner data access.

Lansi Institute of Artificial Intelligence in Medicine 04/2024 – 12/2024
Co-op (Remote)
- Built genomic ETL pipelines for multi-omics, cut preprocessing time 92% via parallel, optimized workflow.
- Led meta-analysis on T2D drug targets, built models linking variants to drug response.

Sanyang Technology Co., Ltd. 07/2024 – 11/2024
Intern
- Built a .NET auto-reconciliation tool that ended manual discrepancy tracking, hit 100% match rate, sped up month-end close.
- Improved ingestion via REST, Kafka, and Redis, handling high-volume sales for near–real-time revenue visibility..

Organizations

UW Fintech 10/2025 – present
Analyst
- Wrote an industry report on AI/ML in fintech, contrasting cyclical growth with speculative bubbles to assess structure, margins, and liquidity risk.

UX Research Hub 09/2024 – present
Director
- Secured full sponsorship and a Google UXR keynote; ran events at $0 operational cost.

PROJECTS

WeAgree
- Secure signing: crypto keypairs, GitHub OAuth, optional passkey step-up, versioned multi-signer workflows.
- Two-rail consent (proof/integrity + intent) producing exportable packages for offline verification.
- Hybrid off-chain store + on-chain anchor: Supabase for signed content/evidence; anchor only `final_proof_hash` on Arbitrum Sepolia.

Smart Handoff: Omni-Channel Lead Generation Co-operators Designathon
- Designed end-to-end user flows and Figma wireframes to streamline digital lead generation into advisor-ready profiles.
- Collaborated on backend logic and data-driven solutions to enhance lead-to-advisor matching.
- Developed an omni-channel strategy—including paid ads and influencer campaigns—to optimize user engagement and boost qualified sales leads.

Certificates & Skills

Coursera: AWS Cloud Solutions, CAPM, PMI-RMP, SAS Programmer, Duke Data Engineering, IBM AI for Cybersecurity, IBM Vector Database, SAP Technology Consultant, Stanford Machine Learning, UCI Database Design & Operational BI, UCI Mathematics for ML, UA Reinforcement Learning, Rice Parallel, Concurrent, and Distributed Programming
Skills: Python, SQL, C#, C++, Java, Git, Go, Kotlin, JavaScript, Linux, Windows, MacOS, .Net, Spring Boot, React, Node.js, Express.js, Flask, PostgreSQL, MySQL, MongoDB, Redis, AWS, GCP, Azure, Docker, Kubernetes, Terraform, GitHub Actions, Jira, Confluence, Pytorch, TensorFlow, Scikit-learn, OpenCV, GenAI tools
