Education

University of Waterloo Sep 2023 - Aug 2027
Bachelor's degree, Computer Science, Finance, and Statistics *Waterloo, ON, Canada*

Skills

Languages:	Python, R, SQL
Tools:	Excel, Word, PowerPoint, Power Automate, Power BI, Tableau, SAP, Bloomberg Terminal
Financial Analysis:	Financial Modeling, Valuation, DCF modeling, FP&A
Accounting:	GAAP/IFRS, Reconciliation, IFRS 16
AI/ML:	PyTorch, TensorFlow, Hugging Face, LangChain, LangGraph, scikit-learn, Microsoft Agent Framework, OpenCV, pandas
Databases:	PostgreSQL, MySQL, MongoDB, Redis

Experience

Manulife Financial Corporation Toronto, ON, Canada
Software Engineer *May 2026 – Aug 2026*

- Architected a reusable pre-validation and skip-on-failure execution pattern across enterprise ServiceNow catalog task workflows; eliminated manual exception handling overhead and enabled resilient, non-blocking asynchronous orchestration for global 1k+ daily cross-system operations.
- Migrated the SNOW orchestrator core from legacy basic authentication to secure GitHub App token exchange via PyGithub; established strict mfc-ets team-level validation, automated permission scopes, and end-to-end audit-trail compliance across catalog automations.
- Enhanced the GOCC orchestrator with live Kubernetes cluster command integration for real-time AKS cert-SAN verification; empowered the Foundry LLM agent to automatically cross-examine GitOps pull requests against live cluster states, successfully catching misconfigurations prior to production deployment.

Treasury Board Secretariat Toronto, ON, Canada
Software Developer *Sep 2025 – Dec 2025*

- Shipped a .NET MVC module auto-normalizing job titles across a 5K-firm public dataset, unblocking analyst peer-group and governance reporting.
- Migrated 30 Selenium cases (5 suites) to Katalon on Azure DevOps CI/CD; demoed to execs and adopted by other QA teams to ease no-code onboarding.
- Refactored core modules of the enterprise data platform and tuned SQL, cutting 5K-firm-facing browser page load 30% for faster reviews.

Guangdong Tiptop Asset Management Co., Ltd. Guangdong, China
Analyst *Jan 2025 – Apr 2025*

- Built proprietary long screen on earnings quality, moat, and capex discipline; shortlisted BSE small-caps that fed the desk's weekly idea review.
- 3-statement + DCF on Audiowell (BSE: 920491, ¥3.5B mcap, 27% rev CAGR '22–'24); WACC × exit sensitivity framed an asymmetric base/bear IRR for the desk.
- Authored market-entry thesis on Hunan Smartcxi (commercial-kitchen EaaS): sized ¥50–200B TAM with labor-inflation + chain-penetration tailwinds.

Lansi Institute of Artificial Intelligence in Medicine Remote
Data Analyst *May 2024 – Dec 2024*

- Built genomic ETL pipelines for ~100GB multi-omics data; per-sample fan-out via Python `multiprocessing` cut runtime 89%.
- Ran XGBoost + SMR/MR² across a 68-study T2D meta-analysis as research assistant; narrowed the candidate drug-target shortlist used in the published paper.

Projects

qmj-tsx

- Replicates Asness QMJ factor on TSX small-caps; price-derived Quality proxy plugs the sparse-fundamental gap via Parquet pipelines.
- Multi-source ingest (yfinance, AQR, Ken French) feeds Newey–West regressions and sector×weighting×subperiod robustness sweeps.

schl-take-private-lbo

- Built full-cycle sponsor LBO on Scholastic (SCHL) at $47/share: EDGAR XBRL historicals, 3-scenario operating model, $919M Sources & Uses, 4-tranche debt stack with covenant sweep, Y3 dividend recap, and exit waterfall.
- Tornado analysis identified terminal EBITDA margin as dominant value driver (2,127 bps IRR range); investment memo concludes DECLINE at $47/share, re-bid $40–42; Python scripts automate full model rebuild.

audited-pa

- IBKR Flex XML ⟶ monthly tear sheets and position-level attribution via pandas + pyarrow; qpdf redacts statements with a verification loop.
- Source-of-truth reconciliation re-derives every headline stat from raw fills, so audited cumulative history stays tamper-evident.

Achievements

- Scaled UX Research Hub 32× (10⟶318 members) as Director; negotiated Google UXR keynote at $0 cost and brokered TikTok chapter cross-promotion for sustained recruitment growth.
- Velocity Co-op Problem Award (top submission among co-op cohort); 3rd Place, SAF Investment Research Challenge; Finalist, SAF Strategy Case Competition, Moonshot Hackathon Winner

Coursework

ADP Payroll, Intuit Bookkeeping, TUM Cost Accounting, UPenn Finance & Quantitative Modeling, UVA Business Strategy, UVA Pricing Strategy Optimization, Yonsei Valuation & Financial Analysis for Startups, Google Data Analytics, SAS Time Series & Sequential Data Analysis, UCSC Bayesian Statistics, UCI Database Design & Operational BI, SAP Technology Consultant
