Education

University of Waterloo Sep 2023 - Aug 2027
Bachelor's degree, Computer Science, Finance, and Statistics *Waterloo, ON, Canada*

Skills

Languages:	Python, R, SQL
Tools:	Excel, Word, PowerPoint, Power Automate, Power BI, Tableau, SAP, Bloomberg Terminal
Financial Analysis:	Financial Modeling, Valuation, DCF modeling, FP&A
Accounting:	GAAP/IFRS, Reconciliation, IFRS 16
AI/ML:	PyTorch, TensorFlow, LangChain, LangGraph, scikit-learn, Microsoft Agent Framework, OpenCV, pandas
Databases:	PostgreSQL, MySQL, MongoDB, Redis

Experience

Manulife Financial Corporation Toronto, ON, Canada
Software Engineer *May 2026 – Aug 2026*

- Owned automation of **1K+ daily cross-system operations** on an internal financial-services platform serving thousands of developers; ServiceNow pre-validation and skip-on-failure handling removed the manual exception queue.
- Strengthened access control and auditability by replacing plaintext basic-auth GitHub access with **GitHub App token exchange** (PyGithub); added team-scoped validation and least-privilege permissions across catalog automations.
- Added AKS cluster and certificate checks to GOCC, enabling a **Foundry LLM agent to compare GitOps PRs with live cluster state** and flag deployment misconfigurations before they reached production.

Treasury Board Secretariat Toronto, ON, Canada
Software Developer *Sep 2025 – Dec 2025*

- Independently built the job-title normalization module for a **5K-firm public dataset** (.NET MVC + SQL Server), cutting **85%** of the administrative backlog that had blocked peer-group and governance reporting.
- Rebuilt stored procedures, added indexes, and removed cursors, cutting report page load **30%** for analyst-facing reviews of 5K firms.
- Led the migration of **30 Selenium tests across five suites** to Katalon on Azure DevOps CI/CD; adoption by other QA teams simplified their no-code onboarding.

Guangdong Tiptop Asset Management Co., Ltd. Guangdong, China
Analyst *Jan 2025 – Apr 2025*

- Built a quantitative screen across **500+ BSE-listed equities** on earnings quality, moat durability, and capital intensity, distilling the universe into a **weekly shortlist** for portfolio managers.
- Owned end-to-end the three-statement and DCF model for Audiowell (**¥3.5B market cap**) — 27% revenue CAGR, WACC, and exit sensitivities — supporting the post-listing sell-down of a **¥15M** pre-IPO position at **~5–6×**, a **¥30M+** stake retained.

Lansi Institute of Artificial Intelligence in Medicine Remote
Data Analyst *May 2024 – Dec 2024*

- Owned a parallelized genomic ETL pipeline for **~100GB of multi-omics data**, using per-sample `multiprocessing` fan-out to cut preprocessing **89%, from days to hours**.
- Applied XGBoost and SMR/MR² across a **68-study T2D meta-analysis**, narrowing the candidate drug-target shortlist used in published papers.

Projects

qmj-tsx

- Reproduced Asness's Quality Minus Junk factor for TSX small caps; built a price-derived quality proxy to address sparse fundamental data and persisted the pipeline in Parquet.
- Combined yfinance, AQR, and Ken French data to run Newey-West regressions and robustness checks across sectors, weighting schemes, and subperiods.

Achievements

- 3rd Place, SAF Investment Research Challenge; finalist, 7th Annual SAF Strategy Case Competition; finalist, Alpha FMC x CODE 2025 Case Competition.
- Grew UX Research Hub 32× (10⟶318 members); built a budget tracker that cut planning time 40% for a six-person team and allocated seed funding to three on-time projects.
