EDUCATION

University of Waterloo 09/2023 – 04/2028

Computing and Financial Management, Honours, Co-op

Majors: Computer Science, Finance, Statistics

EXPERIENCE

Manulife 05/2026 – 08/2026

Co-op

- Triage 10 weekly cloud and network infrastructure tickets from global ETS teams via ServiceNow, owning resolution and stakeholder follow-through.
- Co-developing `aks-onboarding-automation` to replace manual ServiceNow ticket exchanges, projected to compress onboarding turnaround from days to minutes per request.

Treasury Board of Canada Secretariat 09/2025 – 12/2025

Co-op

- Shipped a .NET MVC module that auto-normalized job titles across 5K public firms using pattern-matching heuristics; reduced manual data cleaning by 80%.
- Migrated 30 test cases across 5 suites from legacy Selenium to Katalon and stood up CI/CD on Azure DevOps, presenting demo to executives.
- Refactored core modules of an enterprise data platform and optimized SQL queries, cutting page load times by 30% while improving long-term maintainability.

Guangdong Tiptop Asset Management Co., Ltd. 01/2025 – 04/2025

Intern

- Led bottom-up research across food-service automation and industrial sensors; designed a proprietary screen on earnings quality, competitive moat, and capex discipline to surface long candidates in fragmented markets.
- Built an integrated 3-statement + DCF model for Audiowell (BSE: 920491, ¥3.5B market cap, 27% revenue CAGR '22–'24); sensitized WACC and exit multiples to bracket base- and bear-case IRR.
- Authored a market-entry thesis for Hunan Smartcxi (commercial kitchen automation, equipment-as-a-service); sized the addressable market at ¥50–200B and framed labor-cost inflation and chain penetration as primary tailwinds against cross-border regulatory friction as the key risk.

Lansi Institute of Artificial Intelligence in Medicine 04/2024 – 12/2024

Co-op (Remote)

- Built genomic ETL pipelines for multi-omics data (100+ GB, FASTQ/VCF), orchestrating per-sample fan-out across cores with Python `multiprocessing` to compress end-to-end processing 89%.
- Co-authored a published T2D drug-target meta-analysis pooling 68 studies; trained XGBoost, SMR, and MR^2 models to link genetic variants with drug response.

ORGANIZATIONS

UW Fintech 10/2025 – present

Analyst

- Authored monthly market analysis reports for a 50-member investment club, synthesizing macro, sector, and single-name equity trends to inform members' trade ideas.

UX Research Hub 09/2024 – present

Director

- Secured 100% external sponsorship and booked a Google UXR keynote speaker, delivering flagship programming at $0 operational cost to the club.
- Negotiated a cross-promotion partnership with the TikTok student chapter, expanding event reach and growing shared audience.

ACTIVITIES

3rd Place at 12th Annual SAF Investment Research Challenge 07/2025

Finalist at 7th Annual SAF Strategy Case Competition 05/2025

CERTIFICATES & SKILLS

Coursera: ADP Payroll, Duke Data Engineering, Google Data Analytics, Google Digital Marketing & E-commerce, Google IT Support, IBM AI for Cybersecurity, Intuit Bookkeeping, SAP Technology Consultant, SAS Time Series and Sequential Data Analysis, Stanford Machine Learning, TUM Cost Accounting, UCI Blockchain, UCI Database Design & Operational BI, UPenn Finance & Quantitative Modeling, UVA Business Strategy, UVA Pricing Strategy Optimization, Yonsei Valuation and Financial Analysis for Startups, UCSC Bayesian Statistics

Skills: Excel, Word, PowerPoint, Power Automate, Power BI, Tableau, SQL, SAP, Python, Bloomberg Terminal, Financial Modeling, Valuation, GAAP/IFRS, GenAI tools
