Jian (Jack) Feng

Business & Data Analyst + AI Generalist Intern

To: Interact Health PRO

Remote, Online via Zoom

I am excited to apply for the Business & Data Analyst + AI Generalist Internship at Interact Health PRO. I am particularly interested in gaining real-world experience across App Development, Database Design, CRM Automations, and AI/Prompt Engineering.

I am pursuing a degree in a related field and have a strong interest in health-tech, AI, and workflow automation. I am organized, curious, and able to learn independently and in teams.

I am eager to collaborate with app developers, CRM integrators, database teams, and the AI strategy group, and to contribute to the automation of internal internship onboarding and business processes.

Sincerely,
Jian (Jack) Feng
